

We've learned of hidden knowledge  
that the old Egyptians had—  
But really it seems to us it must have  
been too bad  
If they must soak and spatter through  
the rains that wet them then,  
And hadn't any Cravenettes like we  
get at—

RELIGIOUS LITERATURE

MILLIONS OF LEAFLETS AND PERIODICALS DISTRIBUTED.

Points from the Annual Report of the

American Tract Society—Work

of the Colporters.

NEW YORK, June 20.—The seventy-

eight annual report of the American

Tract Society, made public to-day, states

that in this society a consensus has been

reached as to what the Bible teaches on

many, if not all essential points, as held

in common by the several evangelical de-

nominations, in printing it in various forms

and many languages and in sending it to

the people in all quarters of the globe.

The new year begins with a revenue from

rentals from the society's buildings, which

will yield a considerable sum available as

a sinking fund toward removing the bur-

den of debt. The new publications, distinct

from periodicals, brought out by the society

during the year are eighty-five in num-

ber. Of these fifty-six were volumes and

twenty-nine tracts. The society is now

publishing seven periodicals, four in Eng-

lish, two in German and one in Spanish.

The aggregate circulation of these period-

icals during the year has been 3,063,000.

Union missionary colportage finds among

the immigrants anarchistic organizations

infidel literature utterly hostile to Chris-

tianity and grossly immoral, and catechisms

for the young. Colportage, among the im-

migrants in cities, has been diligently pro-

secuted. The gospel truth has been pub-

lished in 135 languages and in Spanish.

Colporters and gratuitous distributors dis-

tribute it far and wide among the people.

The demand for the literature is so great

that the mission stations throughout the world

is greater than it has been for three quar-

ters of a century. On the Pacific coast, the

12,250 families were found that never went

to religious worship. Over two hundred

and fifty thousand dollars in cash have been

sent to India for printing the gospel in

plenty of its varied languages.

It used to rain in Egypt till it over-  
flowed the Nile,  
But hieroglyphic records give no  
hint of mode or style,  
Of coat, or cloak or garment, to pro-  
tect them from the rain—  
They must have staid inside the white  
the storms swept o'er the plain.

ADJUDG  
The date of the plan of 1903, compared with  
that of 1890, the earliest with an authentic  
record, shows that the city has sunk 2 1/2  
feet of water, which is at the rate of about one  
foot in 100 years. At this rate the present  
grade of Atlantic avenue near the foot of  
State street will be washed by the spring  
tides of each month about 50 years hence.  
Many rocks about the edges of Massachu-  
setts bay are found to be from one to two  
feet deeper below extreme low water now  
than they were about ninety years ago. In  
many points about Boston tree trunks are  
found standing in salt marsh under condi-  
tions that prove a recent subsidence.

## WHO OWNS WARSHIPS?

QUESTION WHICH THE GOVERNMENT  
WISHES DETERMINED.

Interests Aggregating Millions of Dol-  
lars Involved in the Virginia  
and New Jersey Cases.

UNCLE SAM TO GIVE BONDS

AND SECURE POSSESSION OF THE  
GALVESTON AND CHATTANOOGA.

Call made on the President by Chinese  
Reformers Who Cannot Return  
to Their Own Land.

WASHINGTON, June 20.—Attorney Gen-  
eral Knox had prepared to-day a stipula-  
tion in the nature of a bond which on  
Monday will be filed with Judge Grinnan,  
of the Chancery Court of Richmond, prac-  
tically covering the government's inter-  
est in the gunboat Galveston. This stipu-  
lation or bond, it is asserted, will more  
than cover the claims of the creditors  
against the Trigg company for work done  
and material used on the ship. After the  
stipulation is filed it is believed that Judge  
Grinnan will immediately release the ship  
to the government.

It was learned at the Navy Department  
to-day that far greater interests are in-  
volved in the decision of the question of  
the possession of the cruisers Galveston  
and Chattanooga than are represented  
by the actual cash value of those boats. It is regarded as absolute-  
ly essential at this stage to establish a  
sound precedent and determine the ques-  
tion of title to war vessels under construc-  
tion in order to protect the government's  
interests in the future.

Dozens of ships, including vast battleships  
worth nearly \$5,000,000 each. Similar ac-  
tion will be taken with the gunboat Chat-  
tanooga building at Elizabethport and it is  
therefore probable that no further  
delays will be encountered in the comple-  
tion of the Galveston and the Chattanooga,  
while any show of force or duress on the  
part of the national government will be  
avoided. It is fully expected that similar  
action to that about to be taken in the  
case of the two cruisers will be necessary  
in the case of some much larger warships  
now on the stocks.

Chinese Reformers See the President.

WASHINGTON, June 20.—President  
Roosevelt received three callers who, if  
they should return to their native country,  
might be held liable to the penalty for high  
treason. They were Chinese—Prof. Leong  
Kai Chek, vice president of the Chinese Re-  
form Association, Rev. Chen, secretary of  
the same organization, and Chen Yuen,  
president of the branch association in  
Canada. They are endeavoring to create a  
sentiment among Chinese throughout the  
world, including people in their native coun-  
try, for the establishment of a constitutional  
monarchy. They do not de-  
sire that the power of the Emperor of China  
should be restricted, but that the govern-  
ment should be under a definite and well  
understood constitution. They have estab-  
lished branch associations in many parts  
of the world and are hopeful of the success of  
their work. They desired simply to pay  
their respects to President Roosevelt.

Recent Army Orders.

WASHINGTON, June 20.—Capt. Edgar  
Russell, signal corps, will proceed to Seat-  
tle, Wash., on official business pertaining  
to the installation of the Alaskan cable,  
and upon the completion of that duty will  
return to his proper station in this city.

Contract Surgeon John H. Bosely, United  
States army, will proceed from this city to  
Governor's Island, N. Y., and report in per-  
son to the commanding general, Depart-  
ment of the East, for assignment to duty.

First Lieutenant Clifton B. Kibbey, Ninth  
Infantry, has been granted four months'  
leave of absence.

National Capital Notes.

WASHINGTON, June 20.—The President  
to-day appointed George Francis Patton,  
son of Col. William S. Patton, of the quar-  
termaster's department, a cadet at large  
at the United States Military Academy to  
fill a vacancy caused by the discharge of a  
deficient cadet.

Zachary Layons, a colored postoffice la-  
borer, was to-day arrested in the Post-  
office Department building on the charge of  
stealing letters. He said he was the victim  
of machinations of other employees.

There was a rebuke to the present  
postal arrangements between that depart-  
ment and the United States was laid be-  
fore the President to-day. Now it is  
General Payne. It was signed by the Pres-  
ident and Mr. Payne and then transmitted  
to the State Department for the signature  
of Secretary Hay.

Secretary Cortelyou, of the Department  
of the Interior, left to-day for Canton, O.  
He will pass Sunday there  
as the guest of Mrs. McKinley. On Mon-  
day he will go to Cleveland to at-  
tend a meeting of the McKinley Memorial  
Association. It is said that a sum sufficient  
to erect the proposed monument already  
has been raised, but it is desired to increase  
the amount in hand by \$50,000, which is to  
be used for the maintenance of the cur-  
rent expenses of the monument and the care  
of the tomb.

tion of Driggs that his salary ceased when  
he was removed from office. Now it is a
